\$30K Production Guarantee

Your Risk = \$0

If we do not perform, you receive a 100% full refund.

WHAT THE GUARANTEE MEANS

01

\$30K floor

\$30,000 in new patient production within 1 year, based on your patient value.

02

Full refund

If the guarantee is not met, you receive a 100% refund.

03

Month-to-month

No long-term contract pressure. The work has to keep earning its place.

04

You keep assets

Website, creative, campaigns, tracking, and marketing assets stay with you.

WE CARRY THE RISK

- ✓ We pay the team and handle fulfillment before the result is fully realized.
- ✓ The agreement stays month-to-month, so momentum matters every month.
- ✓ The offer is built around measurable new patient production, not marketing activity.
- ✓ If the work does not more than pay for itself, you get refunded.

WHAT YOU KEEP

Even if the guarantee is triggered, the work does not disappear.

Website

A stronger front door for patients who are ready to evaluate your practice.

Campaigns

Acquisition systems designed to turn attention into booked opportunities.

Creative

Offer, message, and visual assets your practice can keep using.

Tracking

Visibility into whether marketing is creating real production.

WHY THIS BECOMES A NO-BRAINER

The work has to create business value, not just output.

That is why the risk belongs with the team responsible for the marketing system: us.
